

STEEL LINE

TOUGHNESS
TO GET YOU
THERE

Stahlsac's Steel Line of premium bags protect gear from the elements with functional compartments that keep dry items dry and wet gear safely sealed away. The Steel Line will appeal to a wide range of adventurers who participate in gear-intensive and water-related activities. Every detail is engineered for a purpose and key features are carefully refined to maximize the usefulness of the entire bag. The innovative designs and modern styling provide organizational solutions for any time outdoors and near the water.

FEATURING THE EXCLUSIVE
WETDRY SYSTEM

STAHL SAC.COM/STEELLINE

GO ANYWHERE

WHEELED BAGS

With separate wet/dry compartments, rugged construction, and travel-friendly design, the Steel bag can breeze through the airport then withstand the harshest conditions to get all that gear anywhere, and back.

WETDRY SYSTEM

All of the bags of the Steel line feature a version of the wet/dry system to keep wet and dry items separate

Waterproof compartment

Optional battery pack in designated compartment

Bright interior to help locate small items

Breathable wet compartment

"Add-a-bag" strap to attach a backpack or carry-on

Minimized stress and failure points with abrasion-resistant materials

Quick-access zippers

Low profile frame allows for easy storage

Sturdy grab-handles

Multi-purpose changing pad *
