# SIDEKICK | THE PERFECT GoPro LIGHT

DESIGNED AND  
ASSEMBLED IN THE  
**USA**

You go to extraordinary lengths to find yourself in epic moments but the lighting is often not adequate for a good shot. Sidekick provides perfect lighting for every adventure.

GOPRO ONLY

GOPRO W/ SIDEKICK

## CERTIFIED QUALITY

FL1-STANDARD

All our lights are developed to meet / exceed the ANSI/NEMA FL-1 Standard, a testing protocol to scientifically measure a light's brightness, run-time, and water/ impact resistance.

## SMART ELECTRONICS

BATTERY STATUS INDICATOR

Colored LED indicator clearly displays battery levels during use and charging so you can plan ahead.

## FACTORY SEALED

TESTED RELIABILITY

Sidekick's factory sealed design with external charging offers reliable flood-free performance to 60 meters depth.

## THE PERFECT LIGHT

FOR EVERY ADVENTURE

Light control for every situation with the dual beam model.

Dedicated optics provide a 90° Flood & 23° Spot in air and a 60° Flood & 12° Spot underwater.

Two button system makes it easy to toggle between modes.

## MODULAR SYSTEM

Works with all configurations using a simple bolt extender to leverage existing GoPro mounts.
